THIS SAFE WORK METHOD	STATEMENT IS APPROVED BY	THE POST THE PROJECT	
Under the Work Health and Safety Regulation (WHS Regulation), a person conduct the proposed work starts.	eting a business or undertaking (N 3U) is	required to ture at a safe work method s	tatement (SWMS) is prepared before
Full Name:			
Signature:		Title:	Date:
Details of the person(s) responsible for ensuring implementation, monitoring a	ompliance of the SWMS well as review	s and modifications of the SWMS.	
Full Name:		Title:	Phone:
ALL PERSONNEL PARTICIPATING IN ANY ACTIVITY ON THIS WMS. ST HAVE THE FOLLOWING COMMUNICATED	N. 1E AND DATED SIGNATURE OF A CO. MUNICATED TO IN THE DEVELO	LL RELEVANT PERSONNEL WHO HAVE BI PMENT AND APPROVAL OF THIS SWMS	EEN CONSULTED AND
Safety meetings or toolbox talks will be sched ed in accordance with egislative requirements to first identify any site hazards, conditions those hazards and then to further take steps to either the conditions of the conditions are or conditional talks.	NAME	SIGNATURE	DATE
If an incident or a near miss occurs, all work must standardly. Depending on the severity of the incident, a meeting will be called with all workers to amend the SWMS if required. The meeting may also be an educational opportunity.			
Any changes made to the SWMS after an incident or a near miss must be approved by the Person Conducting Business or Undertaking and communicated to all relevant personnel.			
The SWMS must be kept and be available for inspection at least until the work is completed. Where a SWMS is revised, all versions should be kept. If a notifiable incident occurs in relation to which the SWMS relates, then the SWMS must be kept for at least two years from the occurrence of the notifiable incident.

**Note:** A SWMS must be reviewed regularly to make sure it remains effective. A SWMS must be reviewed (and revised if necessary) if relevant control measures are revised. The review process should be carried out in consultation with workers (including contractors and subcontractors) who may be affected by the operation of the SWMS and their health and safety representatives who represented that work group at the workplace.

When a SWMS has been revised, the person conducting a business or undertaking must ensure all:

- 1. persons involved in the work are advised that a revision has been made and how they can access the revised SWMS;
- 2. persons who will need to change a work procedure or system as a result of the review are advised of the changes in a way that will enable them to implement their duties consistently with the revised SWMS: and.
- 3. workers that will be involved in the work are provided with the relevant information and instruction that will assist them to understand and implement the revised SWMS.

JOB STEP	POTENTIAL HAZARDS	IR	CONTROL MEASURES	RR	RESPONSIBLE PERSON
SPECIFIC WORK STEPS	HAZARDS THAT MAY ARISE	INITIAL RISK	SPECIFIC MEASURES TO BE PUT IN PLACE TO ELIMINATE OR CONTROL THE RISKS	RESIDUAL RISK	NAME OF PERSON
1. Preparation	Trip hazards, Electrical hazards	2M	<ul> <li>Organise the workspace to keep it free from clutter and unnecessary objects that may cause trips or falls.</li> <li>Clearly label areas where electrical cords are usent, ensuring they are kept away from walkways to prevent tripping hazards.</li> <li>Conduct thorough equipment inspections to centify any potential faults, wear, or damage before starting work operations.</li> <li>Use appropriate personal projective equipment to RE) - for comple, non-slip shoes or gloves - to minimise the risk of slips, trips, and encroption.</li> <li>Keep a clear path councide dreather area at all times to ensure safe movement for owners durn the programment of persons.</li> <li>Make sure to call electric equipment of persons.</li> <li>Make sure to call electric equipment of persons.</li> <li>Sect a contrical of susing cable ties or proper cable management systems to avoid to give and triping hazards.</li> <li>Create designated as a for safe storage of cleaning supplies, dishes, and other mis to aintain on unobstructed workspace.</li> <li>Impose adequate worker training on proper operating procedures and torkplace afety requirements, such as lifting techniques and emergency response intocols.</li> <li>Ensure that access to electrical panels, switchboards, and power points is durrestricted and well-organised, with clearly marked isolation points.</li> <li>Regularly inspect the area for water leakages or spills, promptly addressing any issues identified to avoid slip hazards.</li> <li>Safely dispose of broken dishware, glass, or sharp objects to prevent injury or accidents within the workspace.</li> <li>Develop and implement emergency response procedures specific to the risks and hazards associated with the use of dishwashers and other related equipment.</li> </ul>	1L	
2. Loading Dishes	Sharp objects, Dish breakages	2M	<ul> <li>Proper training: Ensure all staff responsible for loading dishes receive proper training in handling sharp objects and fragile items to minimise the risk of injury and breakages.</li> <li>Protective gloves: Provide suitable protective gloves for workers handling sharp objects, such as knives and broken glass, in order to prevent cuts and scratches.</li> <li>Use of trays or tubs: Encourage workers to place dishes on trays or in tubs before loading them into the dishwasher, reducing direct contact with potentially hazardous items.</li> </ul>	1L	

JOB STEP	POTENTIAL HAZARDS	IR	CONTROL MEASURES	RR	RESPONSIBLE PERSON
SPECIFIC WORK STEPS	HAZARDS THAT MAY ARISE	INITIAL RISK	SPECIFIC MEASURES TO BE PUT IN PLACE TO ELIMINATE OR CONTROL THE RISKS	RESIDUAL RISK	NAME OF PERSON
			<ul> <li>Safe dish placement: Instruct workers to place sharp objects with the pointy end facing downwards in designated compartments or utensil baskets to avoid accidental injury.</li> <li>Clear and visible warning signs: Display signs or emind staff of potential hazards associated with their task, reinforcing safe to an practices and increasing overall awareness.</li> <li>Regular equipment inspection: Conduct routing typections and maintenance of the dishwasher and its accessories, ensuring that are tamaged or confidential parts are replaced promptly.</li> <li>Establishing a clean of testation Encourage employ as to maintain a tidy workspace by property cit using type poils and dismosing of broken dishes and glassware incompanies of the same poils and dismosing of broken dishes and glassware incompanies of the same poils.</li> <li>Reporting incounts improvately: Fost coulture of open communication by encounting works a seport any near misses, injuries or breakages so that approvate action or to be taken to prevent future incidents.</li> <li>Using this bids: Proide appropriate lifting aids, such as trolleys or carts, to transpol large or hear at dishes, reducing the likelihood of accidents due to rerexel on or coor manual handling techniques.</li> <li>Imports ting rotation schedules: Rotate workers' duties for dish loading tasks to educe a titive strain injuries and provide opportunities for rest periods during the rikday.</li> <li>Rugular safety audits: Conduct periodic workplace safety audits, reviewing and apdating the Safe Work Method Statement (SWMS) as necessary to ensure compliance with current regulations and best practice guidelines.</li> <li>By implementing these control measures, we aim to create a safer working environment for staff members involved in the loading of dishes, minimising associated risks and protecting employee health and well-being.</li> </ul>		
3. Handling Detergents	Chemical hazards, Skin allergies	2M	<ul> <li>Proper training: Ensure all workers handling detergents are provided with adequate instructions on proper techniques, hazards and safety measures.</li> <li>Personal Protective Equipment (PPE): Provide appropriate PPE such as gloves, goggles, and aprons for the workers while handling detergents to prevent direct contact with skin and eyes.</li> <li>Material Safety Data Sheets (MSDS): Display MSDS for the detergents being used in a visible location so that all workers are aware of the chemicals, potential hazards, and first aid measures.</li> <li>Appropriate storage: Store detergent containers in a cool, dry, well-ventilated area away from direct sunlight and food items. Ensure containers are sealed properly to prevent accidental spills.</li> </ul>	1L	

JOB STEP	POTENTIAL HAZARDS	IR	CONTROL MEASURES	RR	RESPONSIBLE PERSON
SPECIFIC WORK STEPS	HAZARDS THAT MAY ARISE	INITIAL RISK	SPECIFIC MEASURES TO BE PUT IN PLACE TO ELIMINATE OR CONTROL THE RISKS	RESIDUAL RISK	NAME OF PERSON
			<ul> <li>Correct labelling: Verify that all detergent containers are clearly labelled with product name, manufacturer details, and hazard warnings in line with Safe Work Australia requirements.</li> </ul>		
			- Dilution guidance: Follow the manufacturer's caelines for diluting the detergent and do not mix with other chemicals unless ecified.		
			- Preventing splash risks: Use a funnel or apportate casuring cups to pour detergents into machines or sinks, reducing the constant splashing and related injuries.		
			- Maintain good housekeeping. Keep the workspan clean arrange of clutter to minimise the likelihood of spills as and accidents.		
			- Proper disposal power mpty tergent containers following local regulations. Prevent the mineral of incorpatible postances ensure material compatibility for safe waste decisal.		
			- Har vigiene ncovinge frequent have washing or provide hand sanitiser for works no hand setergents regularly, minimising the risk of skin allergies and irritation		
			- Emergincy contain ation facilities: Install eye wash stations and/or showers close to lie with area in case of chemical splashes or exposure.		
			- repair aining provide first aid training for workers to be able to respond to incide volving exposure to detergents or related allergies.		
			eport incidents: Encourage employees to report any adverse reactions or sy toms from handling detergents so that appropriate medical attention can be sought and preventative measures can be implemented.

### SIGNATORIES OF THE SAFE WORK METHOD STATEMENT

The signed and dated personnel listed below have cooperated in the consultation and development of this Safe Work Method Statement which has been approved by the Person/s Conducting a Business or Undertaking (PCBU). In signing this Safe Work Method Statement each individual acknowledges and confirms that they have read this SWMS in full, having raised any questions for items on this Safe Work Method Statement that require clarification, and confirms that they are competent, skilled and knowledgeable for the task assigned to them. Every person acknowledges that they have received the relevant training and qualifications where required, before carrying out any work contained in this Safe Work Method Statement. By signing this Safe Work Method Statement each individual agrees to work safely, to follow any safe work instructions which are provided, and agrees to use all Personal Protective Equipment where appropriate.

		SAF WO A S	THUD STATEMENT	MONITORING AND	REVIEW			
The SWMS must be reviewed regularly to pake sure it remains effective and must be reviewed (and revised if necessary) if relevant control measure are a subcontract. For every process should be carried out in consultation with workers (including contractors are subcontract as) who may be affected by the operation of the SWMS and their health and safety representatives who researched that work group at the workplace.  When the SWMS has been revised the PCBU must ensure that all persons involved with the work are advised that a revision has been made and how they can access the revised SWMS, including all persons who will need to change a work procedure or system as a result of the review are advised of the changes in a way that will enable them to implement their duties consistently with the revised SWMS. All workers that will be involved in the work must be provided with the relevant information and instruction that will assist				The SWMS must be monitored regularly for the effectiveness of ensuring hazard controls are effective in reducing the risk of incidents, keeping the workplace safe for all personnel. The person responsible for monitoring the effectiveness of the Safe Work Method Statement should employ a multi-faceted approach which includes but is not limited to:  1. Spot Checks. 2. Consultation with workers, contractors and sub-contractors. 3. Internal audits on a continual basis.  An approach of continuous improvement, promptly recording inconsistencies or deficiencies, followed up by immediate corrective action and consultation with all relevant personnel ensures				
them to understand and implement the revised SWMS.  that the PCBU is consistently developing ever-improving systems of safe work principles.
