|--|---|--|------------------------------------|
| Т | ASK OR ACTIVITY: Pallet Rackin | g | |
| Business Name: [Company Name] | | ABN: [ABN] | SWMS# |
| Business Address: [Company Address] | | | |
| Contact Person: | Phone: [Phone] | E fil: | |
| THIS SAFE WORK METHOD | STATEMENT IS APPROVED BY | THE PLOOF THE PROJECT | |
| Under the Work Health and Safety Regulation (WHS Regulation), a person conduct the proposed work starts. | eting a business or undertaking (N 3U) is | required to ture at a safe work method s | tatement (SWMS) is prepared before |
| Full Name: | | | |
| Signature: | | Title: | Date: |
| Details of the person(s) responsible for ensuring implementation, monitoring a | ompliance of the SWMS well as review | s and modifications of the SWMS. | |
| Full Name: | | Title: | Phone: |
| ALL PERSONNEL PARTICIPATING IN ANY ACTIVITY ON THIS WMS. ST HAVE THE FOLLOWING COMMUNICATED | N. 1E AND DATED SIGNATURE OF A CO. MUNICATED TO IN THE DEVELO | LL RELEVANT PERSONNEL WHO HAVE BI PMENT AND APPROVAL OF THIS SWMS | EEN CONSULTED AND |
| Safety meetings or toolbox talks will be sched ed in accordance with egislative requirements to first identify any site hazards, conditions those hazards and then to further take steps to either the conditions of the conditions are or conditional talks. | NAME | SIGNATURE | DATE |
| If an incident or a near miss occurs, all work must standardly. Depending on the severity of the incident, a meeting will be called with all workers to amend the SWMS if required. The meeting may also be an educational opportunity. | | | |
| Any changes made to the SWMS after an incident or a near miss must be approved by the Person Conducting Business or Undertaking and communicated to all relevant personnel. | | | |
| The SWMS must be kept and be available for inspection at least until the work is completed. Where a SWMS is revised, all versions should be kept. If a notifiable incident occurs in relation to which the SWMS relates, then the SWMS must be kept for at least two years from the occurrence of the notifiable incident. | | | |

Note: A SWMS must be reviewed regularly to make sure it remains effective. A SWMS must be reviewed (and revised if necessary) if relevant control measures are revised. The review process should be carried out in consultation with workers (including contractors and subcontractors) who may be affected by the operation of the SWMS and their health and safety representatives who represented that work group at the workplace.

When a SWMS has been revised, the person conducting a business or undertaking must ensure all:

- 1. persons involved in the work are advised that a revision has been made and how they can access the revised SWMS;
- 2. persons who will need to change a work procedure or system as a result of the review are advised of the changes in a way that will enable them to implement their duties consistently with the revised SWMS: and.
- 3. workers that will be involved in the work are provided with the relevant information and instruction that will assist them to understand and implement the revised SWMS.

| JOB STEP | POTENTIAL HAZARDS | IR | CONTROL MEASURES | RR | RESPONSIBLE PERSON |
|-------------------------|--|-----------------|--|------------------|--------------------|
| SPECIFIC WORK STEPS | HAZARDS THAT MAY ARISE | INITIAL RISK | SPECIFIC MEASURES TO BE PUT IN PLACE TO ELIMINATE OR CONTROL THE RISKS | RESIDUAL RISK | NAME OF PERSON |
| 1. Preparation | Trip hazards, Incorrect manual handling techniques | 2M | Thoroughly inspect the workspace before commencing work to identify and remove any potential trip hazards such as loose cables, debtor or uneven surfaces. Mark and signpost areas with identified trip having that cannot be removed immediately, ensuring that all workers are one of the hazards in the area. Train all personnel involved in pallet racking stivition or proper manual handling techniques, including lifting, carrying, pushing, a unling loads. Provide clear pathways for or kers to move aro not the story of area to reduce the likelihood of trips and falls white arrying items or no earlying equipment. Ensure appropriate point all protective equipment (Pa-E) such as safety shoes with slip-resistant or of are wornly won as to minimal the risk of slips and trips. Encourage in all at stretch and posture boards for workers to reduce muscle strain and for the assignated on prolonged manual handling tasks. Implicate a budge system for heavier or awkward items where lifting or moving tasks a six to got be usen two or more workers. Use methan ally assigned lifting devices such as trolleys, pallet jacks, or forklifts beneve possion to reduce the need for manual handling and minimise associated risk. Store in cently accessed or heavy items at waist height to decrease bending and aching during manual handling tasks, reducing the risk of injury. Establish clear communication protocols among workers when coordinating manual handling tasks to ensure safe lifting and movement of materials. Regularly inspect and maintain all equipment related to pallet racking, including ladders, pallet jacks, and forklifts, identifying and addressing any potential hazards promptly. Conduct periodic assessments of the workplace to identify new or emerging hazards related to pallet racking tasks and implement appropriate control measures to manage these risks effectively. | 1L | |
| 2. Equipment Inspection | Faulty equipment, Lack of training | 2M | Regular equipment inspection: Develop and maintain a schedule to periodically inspect all equipment for any faults or damages, ensuring that the inspection is completed by a competent person. Operations manual: Ensure that all workers have access to the manufacturer's operations manual for the specific pallet racking system being used in the workplace. Proper training: Provide comprehensive training to all personnel involved in the handling of pallet racking systems on proper usage, maintenance procedures, and recognizing potential hazards. Visual inspections: Encourage employees to perform daily visual inspections to check for any loose, damaged or missing parts on the pallet racking equipment, reporting any issues immediately. | 1L | |

| JOB STEP | POTENTIAL HAZARDS | IR | CONTROL MEASURES | RR | RESPONSIBLE PERSON |
|---------------------|--|-----------------|---|------------------|--------------------|
| SPECIFIC WORK STEPS | HAZARDS THAT MAY ARISE | INITIAL RISK | SPECIFIC MEASURES TO BE PUT IN PLACE TO ELIMINATE OR CONTROL THE RISKS | RESIDUAL RISK | NAME OF PERSON |
| | | | - Establish reporting procedures: Implement a clear and efficient process for employees to report any faulty, damaged, or suspect equipment for immediate follow-up. | | |
| | | | - Equipment inventory management: Keep an co-date inventory list of all the pallet racking equipment in use, their dates of pure use, maintenance records, and replacement parts availability. | | |
| | | | - Corrective action: Timely address and resolve acquipment faults or failures identified during inspections or reported by empires to preven potential accidents and incidents. | | |
| | | | - Use of appropriate Train ployees to utilise appropriate tools when performing inspections, records, all coutine maintenance on the pallet racking system. | | |
| | | | - Load sting of poliance insure work and aware of the maximum permissible load for the police pallet racking system and adhere to these limits at all times. | | |
| | | | - Taggle 1 or of-serve equipment: Clearly mark and segregate unusable equipment, pre-enting evidental usage, until it is replaced or repaired. | | |
| | • | | view and ever ation of control measures: Periodically review and evaluate the effection as of implemented control measures and modify them as necessary ased to winformation, changes in work practices, or relevant legislation. | | |
| | | \rightarrow | - rident investigation: Investigate any accidents or near-misses involving pallet racking equipment and implement corrective actions to prevent recurrence. | | |
| | | | - Maintain records: Keep detailed records of equipment inspections, training sessions, reported faults and corrective actions taken to help identify trends and areas for improvement in workplace health and safety. | | |
| | | | - Clearly mark and designate the work area for pallet racking installation to prevent unauthorised access and provide clear walkways for workers. | | |
| | | | - Ensure adequate lighting is installed in the work area to enhance visibility, reduce shadows and minimise the risk of accidents due to poor visibility. | | |
| 3. Area Setup | Poor visibility, Obstructed pathways | 2M | - Implement proper housekeeping measures by regularly clearing debris, tools, or equipment that could obstruct pathways and create tripping hazards. | 1L | |
| J. Alea Jelup | 3. Area Setup Poor visibility, Obstructed pathways | Z1VI | - Install warning signs and caution tape around the work site to alert workers and visitors of potential hazards in the area. | IL | |
| | | | - Use high-visibility PPE (personal protective equipment) such as vests, jackets, and helmets to make personnel more visible while working in and around the site. | | |
| | | | - Train all workers on the proper use, handling, and safety protocols when using pallet racking equipment, ensuring they understand the potential hazards associated with their tasks. | | |

| JOB STEP | POTENTIAL HAZARDS | IR | CONTROL MEASURES | RR | RESPONSIBLE PERSON |

SIGNATORIES OF THE SAFE WORK METHOD STATEMENT

The signed and dated personnel listed below have cooperated in the consultation and development of this Safe Work Method Statement which has been approved by the Person/s Conducting a Business or Undertaking (PCBU). In signing this Safe Work Method Statement each individual acknowledges and confirms that they have read this SWMS in full, having raised any questions for items on this Safe Work Method Statement that require clarification, and confirms that they are competent, skilled and knowledgeable for the task assigned to them. Every person acknowledges that they have received the relevant training and qualifications where required, before carrying out any work contained in this Safe Work Method Statement. By signing this Safe Work Method Statement each individual agrees to work safely, to follow any safe work instructions which are provided, and agrees to use all Personal Protective Equipment where appropriate.

| Tollow any sale work instructions which are provided, and agrees to use all reisonal riotective Equipment where appropriate. | | | | | | | | |

SAFE WORK METHOD STATEMENT REVIEW CHECKLIST

This Safe Work Method Statement Review Checklist is to be followed and used upon initial development of the SWMS to help ensure that all steps have been adequately taken before work commences. Think of this document as an internal audit review checklist before commencing work, and may form part of a Toolbox Talk (safety meeting) and may be used as an opportunity for education and training.

| ITEMS WHICH MUST BE INCLUDED IN THE SWMS | COMPLETED | TO BE DONE | COMMENTS |
